Important notice of the crankshafts

Important:

Always refer to the engine manufacturer shop manual for crankshaft installation.

Before closing the crankcase, make sure that the crankshaft fits firmly in the crankcase.

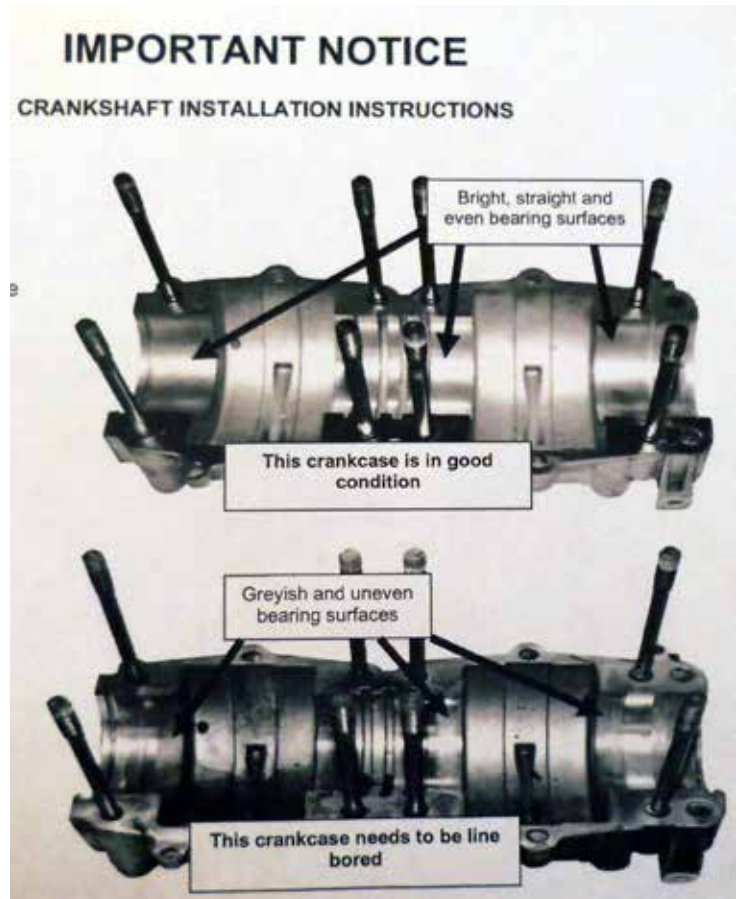

Before and after installing and torquing crank case bolts, be sure that the crankshaft turns smoothly. You must refer to the engine manufacturer for the proper bearing grease application. Bearings may be damaged if the grease is not applied properly.

Break-in-period:

There is never a more important period in the life of your engine than the break-in period. For the first 10 hours, do not put an excessive load on the engine. Avoid prolonged full throttle operation. Also avoid lugging the engine such as laborious operation in wet snow. If an abnormal condition is noticed, such as excessive vibration or noise, consult the engine manufacturer shop manual.

Warranty:

Rebuilt standard parts will be guaranteed for a period of one year starting at the invoice date.

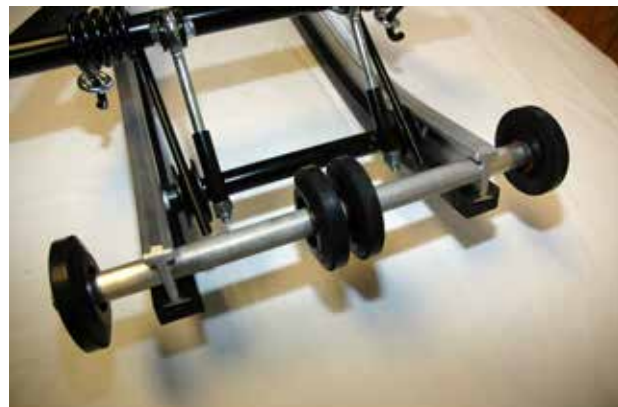

Roues de support

Ajustement
Lors de la réparation de votre poulie ou la pose d'une nouvelle poulie vous devez toujours vérifier le ressort de rappel de la poulie menée. Très souvent le ressort de rappel se ramolli et ne fait plus son travail. Si le ressort est trop mou l'embrayage s'effectuera trop tôt et empêchera le moteur de performer correctement Nettoyez correctement toutes les pièces, Resserrer ou remplacer le ressort de rappel. N'appliquez aucune graisse.

Alignement

Vérifiez l'alignement avec une règle de métal de 12 mm. s'il n'y a pas de caoutchouc d'arrêt pour empêcher le moteur de bouger la dimension **Y** doit être 1,0-1,5 mm plus grande que **X**. Aussi étant donné le diamètre plus petit de la poulie menante veuillez ne pas considérer la dimension **Z**.

Powerbloc 80

Maintenance-free clutch now for powerfull liquid cooled engines This clutch does not have sleeves, levers or other parts that could be damaged. Very reliable. On the clutch can be installed the original starter ring. Clutch is supplied pre-calibrated

Poulie motrice a été en vente dans le début de 2008

Vous pouvez trouver toutes les calibrations sur notre page Web à:

Lorsque le moteur roule à pleine puissance, la capacité du ressort est plus élevée sur le **ressort bleu** que sur le ressort de CVTech. La calibration peut être ajustée en ajoutant une cale dans chaque bloc. N'oubliez pas qu'une cale équivaut à 100 RPM. Si l'engagement du régime moteur diffère du régime nominal, toujours vérifier l'ajustement du ressort et l'alignement de la ligne électrique.

Moteurs réusinés

Available with short delivery time.

Moteur réusiné comprend :

- Base de moteur ré-usiné
- Pistons neuf
- Vilebrequin ré-usiné
- Cylindre replaqué ou alésé
- Ensemble de joint neuf
- Roulement neuf
- 500 ml d'huile pour rodage
- Arbre de valve rotative

Note : Ces prix n'incluent pas l'échange du vieux noyau (core)

Vilebrequins réusinés:

- tous roulement à billes
- centrum Vilebrequins scellés
- Applications des bielles
- straight: 0-OEM specs
- 1 an de garantie = Sans fautes / aucune question

Kumikurkkujen sopivuus
selviää mallikohtaisesti

www.teolehtimaki.fi

ja siellä avaat kyseisen
kelkan sivun. Samalla
saat selville muut siihen
sopivat varaosat.

Pistons de motoneige: Taiwan

- super qualité, anneaux, axe de piston
- mos 2 surface

Nouveaux pistons pour 2013-2014:

- 09-650 Bearcat 570
- 09-657 F7 Firecat
- 09-776 Rotax 600 H.O, E-Tec
- 09-778 Rotax 800 H.O.

Camoplast a cessé la production nationale de chenille d'origine pour le niveau de la presse. Cela signifie que les marques nationales et la motoneige suédois, comme Lynx, Winha, Trapper, et le Ockelbo, Nordik, laissé sans un chenille de rechange. La dernière tranche de chenilles fabriqués à l'été 2010.

Remplacement du Lynx chenille 5900 et l'extension du temple de l'extension

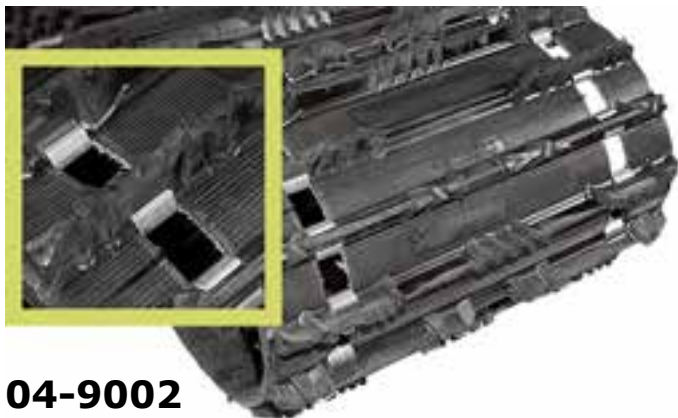

Déconnecté tube

Souder un morceau de tuyau qui est inséré entre les. Vous obtenez des morceaux de chenille avec

Soudage à la figure achevée. Dans ce modèle, les roues lisses. Peut également se poursuivre si le dos est engrenages. Par exemple, les modèles 250, 3900 est Très souvent, les engrenages. Les barbotins sont également modifiés. Nécessite l'axe hexagonal. Round ne peut pas être jugé apte à vélos

Nous vous recommandons de No-Slip barbotins.

Bonne saison de motoneige !!

384 cm

403 cm

Toutes les motoneiges peuvent être modifiées selon vos goûts. Il n'y a pas de limite ! Cependant, dans certains cas vous devez évaluer si l'effort requis pour modifier votre motoneige en vaut la peine.

La décision vous revient

S'il vous plaît, considérez que dans certain cas, une motoneige d'origine a une plus grande valeur monétaire qu'une motoneige modifiée.
